

Project Title: Pending

Document Version: 1.0

Date: 15-10-2024

1. Student Registration and Login Process

1.1 Student Registration Process:

Step 1: The student visits the registration page.

Step 2: The student fills in the required fields:

- Name
- Email
- Contact Number
- State of Residency
- Roll Number
- College or Institution

Step 3: The student submits the registration form.

Step 4: The system automatically generates login credentials:

- Username: A unique identifier for the student (e.g., VINIT1710).
- Password: A secure password generated by the system.

- Step 5: The credentials (username and password) are sent to the student via email from the Admin system.

1.2 Student Login Process:

- Step 6: The student checks their email for the username and password.
- Step 7: The student uses these credentials to log into the system on the login page.

1.3 After Login - Home Page Options:

Step 8: After successful login, the student is directed to the home page, where they can explore various options available for courses, profile settings, etc.

1.4 Settings Options:

Step 9: In the home page, the student can access the settings page, which provides two options:

1. Update Profile: The student can modify their profile information.
2. Reset Password: The student can reset their password if necessary.

2. Mentor Registration and Login Process

2.1 Mentor Registration Process:

Step 1: The mentor visits the registration page.

Step 2: The mentor fills in the following required fields:

- Name
- Email
- Contact Number

- State of Residency
- MBBS Number
- College or Institution
- Specialization

Step 3: The mentor submits the registration form.

Step 4: The mentor's application is put on hold, and a notification is sent to the admin for approval.

Step 5: Admin reviews the application:

- If approved, login credentials (username and password) are sent to the mentor's email.
- If rejected, the mentor is notified of the rejection.

2.2 Mentor Login Process:

- Step 6: The mentor receives login credentials via email upon admin approval:
 - Username: A unique identifier for the mentor (e.g., MENTOR1234).
 - Password: A secure password generated by the system.
- Step 7: The mentor logs into the system using the username and password.

2.3 Post-Login - Mentor Dashboard:

- Page 1: The mentor is directed to a page where they can view the list of registered students.
- Page 2: The mentor can access a settings page with the following options:
 1. Update Profile: Allows the mentor to update their profile information.
 2. Reset Password: Allows the mentor to reset their password.

3. Admin Profile Creation and Login Process

3.1 Admin Login Process:

Step 3: The admin logs into the system using the credentials sent to their email.

3.2 Post-Login - Admin Dashboard:

Page 1: Mentor Approval Management

Step 4: The admin can view a list of mentors awaiting approval.

Step 5: The admin has the following options for each mentor:

- Approve the mentor's profile.
- Reject the mentor's profile.
- Hold the mentor's profile for further review.

Page 2: Registered Users Management

Step 6: The admin can view a list of registered students and mentors.

Step 7: The admin has the following management options:

- Edit student or mentor profiles.
- Delete student or mentor profiles.
- Add new user profiles (students or mentors).

Step 8: The admin can access the settings page with two options:

1. Update Profile: Allows the admin to update their profile information.
2. Reset Password: Allows the admin to reset their password.

4. Super Admin Profile Creation and Login Process

3.1 Super Admin Login Process:

Step 3: The Super admin logs into the system using the credentials.

3.2 Post-Login – Super Admin Dashboard:

Page 1: Mentor Approval Management

Step 4: The Super admin can view a list of mentors awaiting approval.

Step 5: The Super admin has the following options for each mentor:

- Approve the mentor's profile.
- Reject the mentor's profile.
- Hold the mentor's profile for further review.

Page 2: Registered Users Management

Step 6: The Super admin can view a list of registered students and mentors.

Step 7: The Super admin has the following management options:

- Edit student or mentor or admin profiles.
- Delete student or mentor or admin profiles.
- Add new user profiles (students or mentors or admin).

Page 3: Super Admin Settings

Step 8: The Super admin can access the settings page with two options:

1. Update Profile: Allows the super admin to update their profile information.
2. Reset Password: Allows the super admin to reset their password.

Note:

1. Once a username is created and assigned to a user, it cannot be changed; it is fixed.
2. A unique ID as a username is assigned only to students and mentors and admin and super admin have username as email.
3. Only mentors need to be approved by the admin.
4. Admins, mentors, and the super admin must authenticate their login by entering an OTP sent to their registered email.
5. The super admin has full access to maintain the entire application.
